| ĺ | LOGICA DIGITAL | | | | | |
| ľ | Docente: Ing Juan Palacios M S | Sc Taller 1 | | | | |

De acuerdo a la ecuación correspondiente realice:

- Tabla de verdad.
- Circuito mediante Thinkercad. (Se evalúa la presentación del circuito).
- Comprobación de la tabla de verdad mediante el circuito.

| Alumno | Ecuación |
|------------|---|
| Arias | $S = (\bar{A}B) + (A\bar{C})$ |
| Dulce | $S = (A\bar{C}) + (\bar{B}C)$ |
| Garzón | $S = (\bar{A} + B) * (A + \bar{C})$ |
| Robledo | $S = (A + \bar{C}) * (\bar{B} + C)$ |
| Guarín | $S = (\bar{B}C) + (ABC)$ |
| Melo | $S = (\bar{B} + C) * (A + B + C)$ |
| Pacheco | $S = (\bar{A}\bar{B}) + (B\bar{C})$ |
| Pérez | $S = (\bar{A} + \bar{B}) * (B + \bar{C})$ |
| Quitiaquez | $S = (BC\bar{A}) + (\bar{B}C)$ |

2. De acuerdo a la tabla de verdad determine:

- Ecuación.
- Circuito (Dibujar en el cuaderno).
- Opcional: Montar el circuito en Thinkercad, tendrá mayor nota quien decida realizarlo.
